About Friends of the Environment

Our Mission

Friends of the Environment works to preserve the environment of Abaco, The Bahamas through education, conservation, and research facilitation.

Founded in 1988 by a group of Hope Town residents who were concerned about the unsustainable use of Abaco's natural resources; the organization developed out of their desire to help. Initially all-volunteer, FRIENDS has grown to a staff of six and Board of ten that reaches communities across Abaco. Since the education program was formally established in 2006, FRIENDS has reached over 25,000 students through classroom presentations, field trips, after-school clubs, and summer camps. In 2015, the opening of the Frank Kenyon Centre for Research, Education, and Conservation helped build further connections between science and the community.

Our Event

The FRIENDS Fiesta is a chance to bring together all those with a love for and connection to Abaco and it's beautiful environment. We invite you to join in celebrating successes in environmental education and conservation and supporting future initiatives. Expect some surprises and a chance to reminisce over good times in Abaco. The event will feature specialty cocktails, heavy appetizers, a presentation, an auction and a chance to support Abaco children in their environmental ambassadorship journey .

Our Work

Education

Getting students out of the classroom and into the environment, promoting environmental awareness and ambassadorship. Creating opportunities for gaining knowledge through experience; learning the importance of eco-system sustainability leading to future environmental protectors.

Conservation

Working with conservation partners and the community to promote healthy environments and sustainable practices throughout Abaco.

Our Work

Research Facilitation

Supporting the work of researchers on island and helping them connect with the community and provide outreach opportunities. Providing opportunities for students to learn about careers in science.

Recovery, Sustainability, and Disaster Response

Reconstructing the FRIENDS Learning Centre, incorporating sustainability and redundancy, creating space for and working with partners to train in and plan for disaster preparedness and response.

FRIENDS is both a registered Bahamian Charity and a US 501(c)(3) non-profit organization.
